WORKSHOP & CAPACITY

05

COMPANY PROPERTY

Our premises offers ample space for operations, with 2200 square meters under lockable and secure roof cover. We understand the importance of ensuring optimum conditions for efficiency and seamless production flow and our facility is maintained to deliver precisely that. In addition, we have 400 square meters outside the facility, which is covered by our cranes to support receiving and dispatch in the handling process. The facility's design guarantees smooth material flow from receiving to dispatch, with an overhead clearance of 4 meters under the crane hook. Our facility includes multiple overhead cranes, allowing us to tackle heavy materials with ease. The setup assures safe and efficient material movement throughout the facility, enabling us to deliver on-time and with quality as our top priority.

Our fabrication capacity is made up as follows:

Structural Steelwork: 150t-200t (depending on the steel category)

Plate Girders: 100t (expandable depending on the girders kg/m)

Platework: 50t

We are not limited by the above reflected tonnages, as we partner with a host of esteemed fabricators and other subcontractors that are managed by our dedicated systems, project managers and teams.

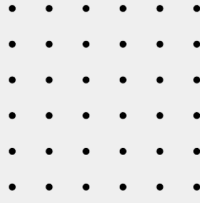

ENVIRONMENT

ENVIRONMENT
